New Integrated Ethics Application Form

Also posted on the FHA website at

<http://research.fraserhealth.ca/approvals-&-ethics/forms-and-guidance-notes/>

Privacy has signed off on this form and it is hoped that this will streamline the process. The new application form now includes the information previously collected for the DAA and PIA (in Appendix 2) for those that require access to personal health information from patients who are research participants or for retrospective research. In addition, there have been a few formatting changes and some clarifications regarding required information for a few questions.
